

Coding - Crea il percorso

.....

The grid contains a blue path that starts at a red dot at the top left. The path moves right for 3 units, then down for 2 units, then right for 1 unit, then down for 2 units, then right for 1 unit, and finally down for 1 unit to reach a red dot at the bottom right, which is positioned next to a grey rock illustration.

Osserva la pagina a fianco e scrivi il percorso che conduce l'orsetto alla sua tana, usando le frecce e i numeri.
